

## Welcome Back!

Welcome back to Camp Oneida. It's still kind of strange, since we are still observing covid restrictions until the governor revises the mandates which means indoor congregations are limited with masks required and outdoor congregations require masks as well. These restrictions apply whether or not you are vaccinated! You must still wear a mask!

There are several projects to still be done on camp clean-up weekend. Those who can help can meet at the main lodge at noon.

We have also been updating the camp by remodeling the main lodge. The bath houses have been painted. The disco now has a polyurethane floor and new lighting. This year we will be alternating DJs again to mix it up and have a variety.

On behalf of the staff we hope you enjoy what looks to be a very busy year again. Also thanks to everyone who helped last weekend to clean up after the worst snow we have seen in years!

Enjoy!

Ron, Tony, Vince and the rest of the staff.

### This Weekend's Activities

Friday night: 9:00 Campfire lit  
10 p.m. till 2 a.m. Club "O" is open  
Saturday nite 9 P.M Campfire lit  
10 p.m. till 2 a.m. Club "O" open

The rest of your time clean up your site and try to get laid!

## Next Weekend is Clean-Up Weekend!

Every year we hold an annual clean-up weekend to take care of jobs that require extra help. We hope this year to be able to untarp the pool, clean up some wood that is laying around the campground from trees downed in the winter, clean up drainage ditches to help save the roads, and do some general clean-up leaf blowing etc. Those that can help can meet at the Main Lodge at noon on Saturday. We will assign jobs at that time. Anyone who works for at least 2 hours on Saturday is welcome to a pizza dinner at 6 o'clock. We hope to see a good turnout this year!,

## Cleaning Ditches

If you have a drainage ditch by your site, please try to keep it clear of leaves and debris. These are a number one cause of road damage since they cause the roads to flood. It isn't difficult to clear up the ditches. You can use a hard rake, a hoe, or a shovel to get rid of wet debris or a leaf blower to get rid of dry debris. I think that if you can help keep the ditches clear, it will make the roads much better on your cars this year!

## The New Website Is Up

One of this winter's projects was getting a revamping of the website. The basics have been completed and are online. We will be adding and tweaking the site through out the year. We may be asking for some photos for the gallery page. The website seems to be helping a lot. Since it was launched reservations are up significantly. If you have any suggestions for the site, let us know.

## Help Fill These Pages

The Rag is the main form of communication we have with everyone here at camp. But I cannot make up articles for the Rag on my own. If you have a need, Let us know we'll advertise it if we can!

## Winter Damage

Considering the winter we had, damage was not too bad. At one point we had over 3 feet of snow on the ground. Two trailers collapsed along with two roofs and a gazebo. All in all we were very surprised at how little damage there was!

## OFFICE HOURS

We are back to our regular office hours which are:

FRIDAY 10 a.m. - 11 p.m.

Saturday 10 a.m. - 11 p.m.

Sunday-Thursday 10 am to 6 pm
